

The De Agostini Group and the De Agostini Foundation for the humanitarian emergency in Ukraine

The De Agostini Group with Fondazione De Agostini have decided to support the Ukrainian people by advocating for organizations and associations that operate on the territory to relieve the population's agony and help with their needs.

De Agostini's Companies have enabled a fundraiser engaging their employees who chose an organization to donate to. The Group equaled the funds provided with a contribution from De Agostini Foundation and then donated to UNHCR – The UN Refugee Agency – Ukraine Emergency.

De Agostini Foundation has also decided to sustain Save the Children's humanitarian programs in the area and support aid operations to Ukrainian refugees in the territories where the association operates directly.

The Foundation also started the project "Ucr@ina – Insieme per conoscerci" to support young Ukrainian students by a distance learning program in some middle schools in Turin and Novara province, hoping to expand the project also in Milan area.
